Dear Brant:

I want to thank you for all of your hard work in getting a difficult sale closed. Once you were on board, there was constant follow up with the client, the listing agent and myself. We were both, very impressed. I spoke with the selling agent recently. She said she was so impressed, with being informed and knowing every day where we stood. She was sure that it would close escrow.

I must tell you, I strongly believe in your company logo now. This transaction did require much leg work and a great lender that does not give up. Again I want to thank you, the clients love their new home and have you to thank for that.
